RE: Contract DACW17-97-D-0001, Delivery Order 0063

Dear Mr. Riley:

Enclosed are the results of the analytical testing for 30 groundwater samples from the S-332B Project Site. These samples were collected December 5, 12, and 14, 2000. Please note that no samples were collected during the last 2 weeks in December due to a personnel shortage at USDA- Miami. All of these samples were collected after pumping operations were started. Specific monitoring well locations are indicated on the enclosed map. A list of well names and descriptions is also provided. Please note that station ID includes the date and time of sample collection. For example, station North Well-120500-1052 indicates that the sample was collected from the north well on December 5, 2000 at 1052 hours.

If you have any questions concerning this report, please contact me at (352) 377-2349.

Sincerely,

Tom Park  
President
